CHURCH CONFLICT.

ORDER OF HIBERNIANS-MEMBERS WILL NOT BE ALLOWED TO HOLD CHURCH PEW-.

WORCESTER, Mass., April 20, 1878.

The quiet town of Millord is agitated to its very centre by a first class row between the paster of the Roman Catholic Church and the Ancient Order of the Ro-man Catholic Church and the Ancient Order of Hiber-nians. Rev. Peter Cuddiby is paster of St. Mary's Church, in that town. He is an Irishuman by birth and a radical in the politics of that unhappy country. He figured quite prominestly in the agitation with O'Connoil, and was at that epoch in Irish history a friar. He suffered his share in the city of Limerick, and subsequently forced to quit the country. He is still under the control of the Superior of the Order to which he belongs, and all money or property which he may accumulate must in the end revert to the religious addicty of which he is a member. He has been for a long time a paster in the diocese of Beston, but when the division took place by which the diocese of Springfield was created he came

The properties of the control of the

lassmoon as the members of this society will not obey the counseis of the paster who has been authorized to watch over and instruct them, I will hence forth recognize them only as conspirators and enemies of the Church and its minister.

"I will now say that in one fortnight all members of this organization, known as Hibernians, who do not renounce forever this evil and corrupt society, cannot occupy or hold pews in this church. The laws of the land and of the Church will justify the priest in depriving them of their seats as they refuse to conform to the the discipline of the Church. He that hearsth you beareth me,' and 'My house is not a dea of theves.' Now, how do do they show themselves to be theves? By taking money out of the people by balls, picnics and contributions of their dupes. These men will never hold paims in their hands. I give fair warning to all who do not oney their priest. Two weeks from to-day they must choose which they shall serve—the so-called Ansient Order of Hibernians or the Church of Christ."

RESISTANCE TO THE PASTOR'S DISCIPLINE.

This discourse and vigorous attack naturally created a sensation, not only among the members of the Order but among all classes of Catholies in Milford and violnity. The officers of the Order met and deliberated over the matter, but as vet there is no record of their action that has come to light. The general behief of the community is that the Order will "sitck" and retuse to abandon their society, choosing to do this rather than submit to what they consider the unjust and tyrannical dictation of their pastor. Next Sunday the trouble will begin, and unless some compromise can be effected meansume a rot is anticipated. Father Cuddihy relaxes not one jot of his rigor, but declares that he will not allow one man belonging to the Order the enter his church unless they make public recantation of their affiliation with the Ancient Order of Hibernians.

T. S. Dakin, Captain American Team:

Dean Sin—Regretting that I cannot agree with the majority of the members of 1877 in their views as to their right to control the selection of the team of 1878, and feeling that in taking a step se important as that proposed the team should act in barmony, I beg to hereby tender my resignation as a member of the team.

Without going into the question of what rights the National Rifle Association have in case the team should decide that the match should be shot elsewhere than at Creedmoor, I can came to no other conclusion than that when the team have fixed time and place for the next match its duties are ended. Respectfully yours.
